

# Foretravel chooses HWH® Active Air for Advanced Technology Coach

# Active Air

**“The best keeps getting better. Foretravel is proud to work with HWH and their “Active Air System” to provide our owners with the best ride possible. I installed this system on my personal motorcoach and couldn’t be more pleased with its real-time performance. Foretravel and HWH have been strategic partners for over 33 years, and it’s because of their innovation that our relationship continues to grow stronger. When you look for a Foretravel, look for Active Air.”**

**Lyle Reed, President  
Foretravel Motorcoach
