

HWH[®] SpaceMaker[®] Bed Mechanism

More space when room is in!

Features and Benefits

- Bed slides up sidewall to allow additional space for walk-around when room is retracted.
- Headboard moves up and down to keep pillows from moving behind bed.
- Allows for a larger bed, up to a California King.
- Allows access to rear closet while room is retracted.
- Unrestricted storage space under bed. Bed mechanism is only six inches deep.
- Smooth hydraulic extension and retraction.
